Introduction

Overview

Goldman Sachs International Bank Johannesburg Branch (the branch) is a branch of Goldman Sachs International Bank (the head office) and is incorporated and domiciled in the Republic of South Africa.

Goldman Sachs International Bank (GSIB) is a UK-domiciled bank involved in lending and deposit-taking activities, securities lending, and a primary dealer for UK government bonds.

The branch's ultimate parent undertaking and controlling entity is The Goldman Sachs Group, Inc. (Group Inc.), a Delaware corporation, which together with its consolidated subsidiaries (collectively, the firm), is a leading global financial institution that delivers a broad range of financial services across investment banking, securities, investment management and consumer banking to a large and diversified client base that includes corporations, financial institutions, governments and individuals. When we use the terms "Goldman Sachs" and "the firm", we mean Group Inc. and its consolidated subsidiaries and when we use the terms "the branch", "we", "us" and "our", we mean Goldman Sachs International Bank Johannesburg Branch.

The Board of Governors of the Federal Reserve System (FRB) is the primary regulator of Group Inc., a bank holding company (BHC) under the U.S. Bank Holding Company Act of 1956 and a financial holding company under amendments to this Act. The firm is subject to consolidated regulatory capital requirements which are calculated in accordance with the regulations of the FRB (Capital Framework).

The capital requirements are expressed as risk-based capital and leverage ratios that compare measures of regulatory capital to risk-weighted assets (RWAs), on and off-balance-sheet exposures. Failure to comply with these capital requirements could result in restrictions being imposed by our regulators and could limit our ability to repurchase shares, pay dividends and make certain discretionary compensation payments. The branch's capital levels are also subject to qualitative judgements by the regulators about components of capital, risk weightings and other factors.

For information on Group Inc.'s financial statements and regulatory capital ratios, please refer to the firm's most recent Quarterly Pillar 3 Disclosures and Quarterly Report on Form 10-Q. References to the "Quarterly Report on Form 10-Q" are to the firm's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2022.

https://www.goldmansachs.com/investor-relations/financials/10q/2022/second-quarter-2022-10-q.pdf

This quarterly disclosure for the branch has been prepared for the three-month period ended June 30, 2022, in line with the accounting reference date for GSIB. All references to June 2022 refer to the three-month period ended thereof, or the date, as the context requires, June 30, 2022.

The branch is supervised by the Prudential Authority (PA) of the South African Reserve Bank (SARB) and as such is subject to minimum capital adequacy standards. Quarterly disclosures are prepared in accordance with the Basel Committee on Banking Supervision (BCBS)'s revised pillar 3 disclosure requirements, and the SARB Directive 1 of 2019 issued in terms of section 6(6) of the Banks Act No. 94 of 1990 and Regulation 43(1) of the regulations relating to banks.

Measures of exposures and other metrics disclosed in this report may not be based on International Financial Reporting Standards (IFRS), may not be directly comparable to measures reported in financial statements, and may not be comparable to similar measures used by other companies or branches. These disclosures are not required to be, and have not been, audited by our independent auditors.

Definition of Risk-Weighted Assets

The risk weights used in the calculation of RWAs reflect an assessment of the riskiness of our assets and exposures. These risk weights are based on predetermined levels set by regulators. The relationship between available capital and capital requirements can be expressed in the form of a capital ratio.

Regulatory Development

The branch's businesses are subject to extensive regulation and supervision. Regulations have been adopted or are being considered by regulators and policy-makers worldwide. In December 2017, the Basel Committee published standards that it described as the finalisation of the Basel III post-crisis regulatory reforms. These standards revise the Basel Committee's standardised and model-based approaches for credit risk, provide a new standardised approach for operational risk capital and revise the frameworks for credit valuation adjustment risk. They also set a floor on internally developed capital requirements at a percentage of the capital requirements under the standardised approach. The Basel Committee has proposed that national regulators implement these standards beginning January 1, 2023, and that the new floor be phased in over five years.

The Basel Committee's standards are not effective in any jurisdiction until rules implementing such standards have been implemented by the relevant authorities in such jurisdiction. The Prudential Authority remains committed to a full, timely and consistent implementation of the remaining standards and as of September 2022, has published proposed requirements for the revised standards including credit risk (standardised and modelled approaches), operational risk, leverage ratio and the output floor. The proposed implementation is January, 1, 2024.

The impact of the Basel Committee developments on the branch (including its RWAs and regulatory capital ratios) is subject to uncertainty until corresponding legislation is implemented.

Unaudited Financial Performance

Table 1: Statement of Profit and Loss

	YTD Jun 2022 R'000
Trading revenues	136,984
Other income/(loss)	(14,234)
Interest income	29,452

Equity	
Contributed capital	955,000
Retained earnings	156,363
Total Liabilities and Equity	**1,857,887**

Capital Framework

Capital Structure

For regulatory capital purposes, the total available capital has the following components:

- Common Equity Tier 1 capital (CET1), which is comprised of endowment capital from GSIB and retained earnings, after giving effect to deductions for disallowed items and other adjustments;
- Tier 1 capital which is comprised entirely of CET1 capital and no other qualifying capital instruments for GSIBJB; and
- Tier 2 capital, which is not currently applicable for GSIBJB.

Certain components of our regulatory capital are subject to regulatory limits and restrictions under the rules. In general, to qualify as Tier 1 or Tier 2 capital, an instrument must be fully paid and unsecured. A qualifying Tier 1 or Tier 2 capital instrument must also be subordinated to all senior indebtedness of the organisation.

Regulatory Capital Ratios

The risk-based capital requirements are expressed as capital ratios that compare measures of regulatory capital to RWAs. The CET1 ratio is calculated as CET1 divided by RWAs. The Tier 1 capital ratio is defined as Tier 1 capital divided by RWAs. The Total capital ratio is defined as Total capital divided by RWAs.

Compliance with Capital Requirements

As of June 30, 2022, the branch had capital levels in excess of its minimum regulatory capital requirements.

Reconciliation to Balance Sheet

Table 3: Reconciliation of Regulatory Capital to Balance Sheet (CC2)

	Jun 2022 R'm
Total equity per unaudited financial statements	1,111
Contributed capital	955
Retained earnings	156
Less: Unaudited retained earnings	(74)
Total regulatory capital	**1,037**

Key Prudential metrics and overview of RWA

The table below provides an overview of the branch's prudential regulatory position as measured by key regulatory metrics as at June 30, 2022, March 31, 2022, December 31, 2021, September 30, 2021, June 30, 2021.

Table 4: Key Metrics (KM1)[1]

		Jun-22 R'm	Mar-22 R'm	Dec-21 R'm	Sep-21 R'm	Jun-21 R'm
	Available capital (amounts)					
1	Common Equity Tier 1 (CET1)	1,037	1,037	487	456	306

17	LCR ratio (%)	591%	520%	427%	632%	657%
	Net Stable Funding Ratio					
18	Total available stable funding	1,279	1,480	899	664	986
19	Total required stable funding	325	403	482	373	628
20	NSFR ratio (%)	393%	367%	187%	178%	157%

1. No transitional arrangement with regards implementation of IFRS 9 for the impact of expected credit loss accounting on regulatory capital have been applied.

2. CET1 available after meeting the bank's minimum capital requirements (%) has been restated for previous quarters to incorporate the CET1 capital earmarked to meet total minimum capital ratio requirement of 8% as opposed to the CET1 minimum requirement of 4.5% used in previous quarters' submissions.

RWAs are calculated based on measures of credit risk, market risk and operational risk. The tables below represent a summary of the RWAs and capital requirements by type as at June 30, 2022 and March 31, 2022.

Table 5: Overview of RWA (OV1)

Composition of Capital

The table below presents further information on the detailed capital position of the branch.

Table 6: Composition of Regulatory Capital (CC1)

		Jun 2022 R'm
	Common Equity Tier 1 capital: instruments and reserves	
1	Directly issued qualifying common share (and equivalent for non-joint stock companies) capital plus related stock surplus	955
2	Retained earnings	82
3	Accumulated other comprehensive income (and other reserves)	-
4	*Directly issued capital subject to phase-out from CET1 (only applicable to non-joint stock companies)*	-
5	Common share capital issued by subsidiaries and held by third parties (amount allowed in group CET1)	-
6	**Common Equity Tier 1 capital before regulatory adjustments**	1,037
	Common Equity Tier 1 capital: regulatory adjustments	
7	Prudent valuation adjustments	-
8	Goodwill (net of related tax liability)	-
9	Other intangibles other than mortgage servicing rights (net of related tax liability)	-
10	Deferred tax assets that rely on future profitability, excluding those arising from temporary differences (net of related tax liability)	-
11	Cash flow hedge reserve	-
12	Shortfall of provisions to expected losses	-
13	Securitisation gain on sale (as set out in paragraph 36 of Basel III securitisation framework[25])	-
14	Gains and losses due to changes in own credit risk on fair valued liabilities	-
15	Defined benefit pension fund net assets	-
16	Investments in own shares (if not already subtracted from paid-in capital on reported balance sheet)	-
17	Reciprocal cross-holdings in common equity	-
18	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, where the bank does not own more than 10% of the issued share capital (amount above 10% threshold)	-
19	Significant investments in the common stock of banking, financial and insurance entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	-
20	Mortgage servicing rights (amount above 10% threshold)	-
21	Deferred tax assets arising from temporary differences (amount above 10% threshold, net of related tax liability)	-
22	Amount exceeding the 15% threshold	-
23	Of which: significant investments in the common stock of financials	-
24	Of which: mortgage servicing rights	-
25	Of which: deferred tax assets arising from temporary differences	-
26	National specific regulatory adjustments	-
27	Regulatory adjustments applied to Common Equity Tier 1 due to insufficient Additional Tier 1 and Tier 2 to cover deductions	-
28	**Total regulatory adjustments to Common Equity Tier 1**	-
29	**Common Equity Tier 1 capital (CET1)**	1,037
	Additional Tier 1 capital: instruments	
30	Directly issued qualifying additional Tier 1 instruments plus related stock surplus	-
31	Of which: classified as equity under applicable accounting standards	-
32	Of which: classified as liabilities under applicable accounting standards	-
33	*Directly issued capital instruments subject to phase-out from additional Tier 1*	-
34	Additional Tier 1 instruments (and CET1 instruments not included in row 5) issued by subsidiaries and held by third parties (amount allowed in group AT1)	-
35	*Of which: instruments issued by subsidiaries subject to phase-out*	-
36	Additional Tier 1 capital before regulatory adjustments	-

	Additional Tier 1 capital: regulatory adjustments	
37	Investments in own additional Tier 1 instruments	-
38	Reciprocal cross-holdings in additional Tier 1 instruments	-
39	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, where the bank does not own more than 10% of the issued common share capital of the entity (amount above 10% threshold)	-
40	Significant investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation	-
41	National specific regulatory adjustments	-
42	Regulatory adjustments applied to additional Tier 1 due to insufficient Tier 2 to cover deductions	-
43	**Total regulatory adjustments to additional Tier 1 capital**	-
44	**Additional Tier 1 capital (AT1)**	-
45	**Tier 1 capital (T1 = CET1 + AT1)**	1,037
	Tier 2 capital: instruments and provisions	
46	Directly issued qualifying Tier 2 instruments plus related stock surplus	-
47	*Directly issued capital instruments subject to phase-out from Tier 2*	-
48	Tier 2 instruments (and CET1 and AT1 instruments not included in rows 5 or 34) issued by subsidiaries and held by third parties (amount allowed in group Tier 2)	-
49	*Of which: instruments issued by subsidiaries subject to phase-out*	-
50	Provisions	-
51	**Tier 2 capital before regulatory adjustments**	-
	Tier 2 capital: regulatory adjustments	
52	Investments in own Tier 2 instruments	-
53	Reciprocal cross-holdings in Tier 2 instruments and other TLAC liabilities	-
54	Investments in the capital and other TLAC liabilities of banking, financial and insurance entities that are outside the scope of regulatory consolidation, where the bank does not own more than 10% of the issued common share capital of the entity (amount above 10% threshold)	-
54a	Investments in the other TLAC liabilities of banking, financial and insurance entities that are outside the scope of regulatory consolidation and where the bank does not own more than 10% of the issued common share capital of the entity: amount previously designated for the 5% threshold but that no longer meets the conditions (for G-SIBs only)	-
55	Significant investments in the capital and other TLAC liabilities of banking, financial and insurance entities that are outside the scope of regulatory consolidation (net of eligible short positions)	-
56	National specific regulatory adjustments	-
57	**Total regulatory adjustments to Tier 2 capital**	-
58	**Tier 2 capital (T2)**	-
59	**Total regulatory capital (TC = T1 + T2)**	1,037
60	**Total risk-weighted assets**	913
	Capital ratios and buffers	
61	**Common Equity Tier 1 (as a percentage of risk-weighted assets)**	113.5%
62	**Tier 1 (as a percentage of risk-weighted assets)**	113.5%
63	**Total capital (as a percentage of risk-weighted assets)**	113.5%
64	**Institution-specific buffer requirement (capital conservation buffer plus countercyclical buffer requirements plus higher loss absorbency requirement, expressed as a percentage of risk-weighted assets)**	2.5%
65	Of which: capital conservation buffer requirement	2.5%
66	Of which: bank-specific countercyclical buffer requirement	0.0%
67	Of which: higher loss absorbency requirement	0.0%
68	**Common Equity Tier 1 (as a percentage of risk-weighted assets) available after meeting the bank's minimum capital requirements**	102.0%
	National minima (if different from Basel III)	
69	National Common Equity Tier 1 minimum ratio (if different from Basel III minimum)	-
70	National Tier 1 minimum ratio (if different from Basel III minimum)	-
71	National total capital minimum ratio (if different from Basel III minimum)	-
	Amounts below the thresholds for deduction (before risk weighting)	
72	Non-significant investments in the capital and other TLAC liabilities of other financial entities	-
73	Significant investments in the common stock of financial entities	-
74	Mortgage servicing rights (net of related tax liability)	-
75	Deferred tax assets arising from temporary differences (net of related tax liability)	-

	Applicable caps on the inclusion of provisions in Tier 2	
76	Provisions eligible for inclusion in Tier 2 in respect of exposures subject to standardised approach (prior to application of cap)	-
77	Cap on inclusion of provisions in Tier 2 under standardised approach	-
78	Provisions eligible for inclusion in Tier 2 in respect of exposures subject to internal ratings-based approach (prior to application of cap)	-
79	Cap for inclusion of provisions in Tier 2 under internal ratings-based approach	-
	Capital instruments subject to phase-out arrangements (only applicable between 1 Jan 2018 and 1 Jan 2022)	
80	*Current cap on CET1 instruments subject to phase-out arrangements*	-
81	Amount excluded from CET1 due to cap (excess over cap after redemptions and maturities)	-
82	*Current cap on AT1 instruments subject to phase-out arrangements*	-
83	*Amount excluded from AT1 due to cap (excess over cap after redemptions and maturities)*	-
84	*Current cap on T2 instruments subject to phase-out arrangements*	-
85	*Amount excluded from T2 due to cap (excess over cap after redemptions and maturities)*	-

Credit Risk

Overview

Credit risk represents the potential for loss due to the default or deterioration in credit quality of a counterparty or an issuer of securities or other instruments we hold. Our exposure to credit risk comes mostly from cash placed with banks, customer and other receivables.

Credit Risk, which is independent of the revenue-producing units and reports to the firm's chief risk officer, has primary responsibility for assessing, monitoring and managing credit risk through firmwide oversight across the firm's global businesses. These credit risks are captured as a component of market risk measures, which are monitored and managed by Market Risk. We also enter derivatives to manage market risk exposures. Such derivatives also give rise to credit risk, which is monitored and managed by Credit Risk.

Counterparty Credit Risk

Counterparty credit risk represents the risk that a counterparty may default before settlement of the transaction. Counterparty credit risk comes from derivatives and securities financing transactions (i.e., resale and repurchase agreements and securities borrowing and lending activities).

The branch derives the Exposure at Default using the SA CCR which takes the fair value (Replacement cost) + Add-on. Exposure values derived are used to determine RWAs.

Table 9: Analysis of Counterparty Credit Risk (CCR) Exposure by Approach (CCR1)

							Jun 2022 R'm
		Replacement cost	Potential future exposure	EEPE	Alpha used for computing regulatory EAD	EAD post-CRM	RWA

Market Risk

Overview

Market risk is the risk of loss in the value of inventory, investments, loans and other financial assets and liabilities accounted for at fair value, due to changes in market conditions.

Market Risk, which is independent of the revenue-producing units and reports to the firm’s chief risk officer, has primary responsibility for assessing, monitoring and managing market risk through firmwide oversight across global businesses.

Managers in revenue-producing units and Market Risk discuss market information, positions and estimated loss scenarios on an ongoing basis. Managers in revenue-producing units are accountable for managing risk within prescribed limits. These managers have in-depth knowledge of their positions, markets and the instruments available to hedge their exposures.

As of June 30, 2022, we have ZAR 2mn market risk exposures in the branch as market risk exposures are hedged out of the branch to the appropriate GS Group affiliate consistent with our policy of centralised risk management. The branch does not use the Internal Models Approach (IMA).

Leverage Ratio

The branch is required to monitor and disclose its leverage ratio that compares Tier 1 capital to a measure of leverage exposure, defined as the sum of certain assets plus certain off-balance-sheet exposures, less Tier 1 capital deductions.

The table below presents information about the branch's leverage ratio.

Table 14: Summary Comparison of Accounting Assets vs Leverage Ratio Exposure (LR1)

		Jun-2022
		R'm
1	Total consolidated assets as per the BA 900	1,858
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	-
3	Adjustment for securitised exposures that meet the operational requirements for the recognition of risk transference	-
4	Adjustments for temporary exemption of central bank reserves (if applicable)	-
5	Adjustment for fiduciary assets recognised on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure	-
6	Adjustments for regular-way purchases and sales of financial assets subject to trade date accounting	-
7	Adjustments for eligible cash pooling transactions	-
8	Adjustments for derivative financial instruments	454
9	Adjustment for securities financing transactions (ie repos and similar secured lending)	-
10	Adjustment for off-balance sheet items (ie conversion to credit equivalent amounts of off-balance sheet exposures)	-
11	Adjustments for prudent valuation adjustments and specific and general provisions which have reduced Tier 1 capital	-
12	Other adjustments	(368)
13	**Leverage ratio exposure measure**	**1,944**

Table 15: Leverage Ratio (LR2)

		Jun-22 R'm	Mar-22 R'm
On-balance sheet exposures			
1	On-balance sheet exposures (excluding derivatives and securities financing transactions (SFTs), but including collateral)	1,490	1,383
2	(Asset amounts deducted in determining Basel III Tier 1 capital)	-	-
3	**Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of row 1 and 2)**	1,490	1,383
Derivative exposures			
4	Replacement cost associated with *all* derivatives transactions (where applicable net of eligible cash variation margin and/or with bilateral netting)	171	470
5	Add-on amounts for PFE associated with *all* derivatives transactions	283	298
6	Gross-up for derivatives collateral provide where deducted from the balance sheet assets pursuant to the operative accounting framework	-	-
7	(Deductions of receivable assets for cash variation margin provided in derivatives transactions)	-	-
8	(Exempted CCP leg of client-cleared trade exposures)	-	-
9	Adjusted effective notional amount of written credit derivatives	-	-
10	(Adjusted effective notional offsets and add-on deductions for written credit derivatives)	-	-
11	**Total derivative exposures (sum of rows 4 to 10)**	454	768
Securities financing transactions			
12	Gross SFT *assets* (with no recognition of netting), after adjusting for sale accounting transactions	-	-
13	(Netted amounts of cash payables and cash receivables of gross SFT assets)	-	-
14	CCR exposure for SFT assets	-	-
15	Agent transaction exposures	-	-
16	**Total securities financing transaction exposures (sum of rows 12 to 15)**	-	-
Other off-balance sheet exposures			
17	Off-balance sheet exposure at gross notional amount	-	-
18	(Adjustments for conversion to credit equivalent amounts)	-	-
19	**Off-balance sheet items (sum of rows 17 and 18)**	-	-
Capital and total exposures			
20	**Tier 1 capital**	1,037	1,037
21	**Total exposures (sum of rows 3, 11, 16 and 19)**	1,944	2,151
Leverage ratio			
22	**Basel III leverage ratio**	**53.3%**	**48.2%**

Liquidity Risk

Table 16: Liquidity Coverage Ratio (LIQ1)[3]

		Total unweighted value (average) (average)	Total weighted value (average)
		R'm	
High-quality liquid assets			
1	Total HQLA		835
Cash outflows			
2	**Retail deposits and deposits from small business customers, of which:**	-	-
3	Stable deposits	-	-
4	Less stable deposits	-	-
5	**Unsecured wholesale funding, of which:**	-	-
6	Operational deposits (all counterparties) and deposits in networks of cooperative banks	-	-
7	Non-operational deposits (all counterparties)	-	-
8	Unsecured debt	-	-
9	**Secured wholesale funding**		-
10	**Additional requirements, of which:**	475	475

34	**Net Stable Funding Ratio (%)**					**393%**

Cautionary Note on Forward-Looking Statements

We have included in these disclosures, and our management may make, statements that may constitute "forward-looking statements." Forward-looking statements are not historical facts or statements of current conditions, but instead represent only our beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside our control. These statements may relate to, among other things, (i) our future plans and results, (ii) the objectives and effectiveness of our risk management and liquidity policies, and (iii) the effect of changes to the regulations, and our future status, activities or reporting under banking and financial regulation.

It is possible that our actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. Important factors that could cause our actual results and financial condition to differ from those indicated in these statements include, among others, those discussed in "Risk Factors" in Part I, Item 1A in the firm's 2021 Form 10-K.

Appendix: Index of Tables to BCBS Requirements

1. Template KM2, TLAC1, TLAC2, and TLAC3 have not been disclosed per paragraph 3.5.2 of SARB Directive 1 of 2019.
2. Table CCA has not been disclosed as GSIBJB has nothing to report as of June 2022.
3. Template CCyB1 has not been disclosed as GSIBJB does not have any credit exposures in jurisdictions where the countercyclical buffer rate is higher than zero.
4. Template CR1-3, CR6-8 and CR 10 have not been disclosed as GSIBJB has no relevant exposures as of June 2022.
5. Template CCR4, CCR6 and CCR7 have not been disclosed as GSIBJB has immaterial/no relevant exposures as of June 2022
6. Template SEC1-4 and Table SECA have not been disclosed as GSIBJB has no securitisation exposure as of June 2022.
7. Template MR1 has not been disclosed as GSIBJB has immaterial MR exposures as of June 2022.
8. Template MR2-4 and Table MRB and MRC have not been disclosed as GSIBJB has no MR exposures under IMA as of June 2022.
