**Pillar 3 Disclosures****Introduction****Overview**

Goldman Sachs International Bank Johannesburg Branch (the branch) is a branch of Goldman Sachs International Bank (the head office) and is incorporated and domiciled in the Republic of South Africa.

Goldman Sachs International Bank (GSIB) is a UK-domiciled bank involved in lending and deposit-taking activities, securities lending, and a primary dealer for UK government bonds.

The branch's ultimate parent undertaking and controlling entity is The Goldman Sachs Group, Inc. (Group Inc.), a Delaware corporation, which together with its consolidated subsidiaries (collectively, the firm), is a leading global financial institution that delivers a broad range of financial services to a large and diversified client base that includes corporations, financial institutions, governments and individuals. When we use the terms "Goldman Sachs" and "the firm", we mean Group Inc. and its consolidated subsidiaries and when we use the terms "the branch", "we", "us" and "our", we mean Goldman Sachs International Bank Johannesburg Branch.

The Board of Governors of the Federal Reserve System (FRB) is the primary regulator of Group Inc., a bank holding company (BHC) under the U.S. Bank Holding Company Act of 1956 and a financial holding company under amendments to this Act. The firm is subject to consolidated regulatory capital requirements which are calculated in accordance with the regulations of the FRB (Capital Framework).

Capital requirements are expressed as risk-based capital and leverage ratios that compare measures of regulatory capital to risk-weighted assets (RWAs), on and off-balance-sheet exposures. Failure to comply with these capital requirements could result in restrictions being imposed by our regulators and could limit our ability to repurchase shares, pay dividends and make certain discretionary compensation payments. The branch's capital levels are also subject to qualitative judgements by the regulators about components of capital, risk weightings and other factors.

For information on Group Inc.'s financial statements and regulatory capital ratios, please refer to the firm's most recent Quarterly Pillar 3 Disclosures and Quarterly Report on Form 10-Q. References to the "Quarterly Report on Form 10-Q" are to the firm's Quarterly Report on Form 10-Q for the

quarterly period ended September 30, 2023.

<https://www.goldmansachs.com/investor-relations/financials/10q/2023/third-quarter-2023-10-q.pdf>

This quarterly disclosure for the branch has been prepared for the three-month period ended September 30, 2023, in line with the accounting reference date for GSIB. All references to September 2023 refer to the three-month period ended thereof, or the date, as the context requires, September 30, 2023.

The branch is supervised by the Prudential Authority (PA) of the South African Reserve Bank (SARB) and as such is subject to minimum capital adequacy standards. Quarterly disclosures are prepared in accordance with the Basel Committee on Banking Supervision (BCBS)'s revised pillar 3 disclosure requirements, and the SARB Directive 1 of 2019 issued in terms of section 6(6) of the Banks Act No. 94 of 1990 and Regulation 43(1) of the regulations relating to banks.

Measures of exposures and other metrics disclosed in this report may not be based on International Financial Reporting Standards (IFRS), may not be directly comparable to measures reported in financial statements, and may not be comparable to similar measures used by other companies or branches. These disclosures are not required to be, and have not been, audited by our independent auditors.

**Definition of Risk-Weighted Assets**

The risk weights used in the calculation of RWAs reflect an assessment of the riskiness of our assets and exposures. These risk weights are based on predetermined levels set by regulators. The relationship between available capital and capital requirements can be expressed in the form of a capital ratio.

**Regulatory Development**

The branch's businesses are subject to extensive regulation and supervision. Regulations have been adopted or are being considered by regulators and policy-makers worldwide.

## **Pillar 3 Disclosures**

In August and September 2022, the PA published its initial proposed requirements implementing Basel III standards. The proposed rules set a floor on internally developed capital requirements at a percentage of the capital requirements under the standardised approach (known as the “output floor”). They also revise the standardised and model-based approaches for credit risk, update the leverage exposure

measure definition and provide a new standardised approach for operational risk capital and for credit valuation adjustment risk capital. In July 2023, the PA announced a delay in the proposed effective date to July 1, 2025.

The branch continues to evaluate the impact of the proposed rules as they are finalised by the authorities.

## Capital Framework

### Capital Structure

For regulatory capital purposes, the total available capital has the following components:

- Common Equity Tier 1 capital (CET1), which is comprised of endowment capital from GSIB and retained earnings, after giving effect to deductions for disallowed items and other adjustments;
- Tier 1 capital which is comprised entirely of CET1 capital and no other qualifying capital instruments for GSIBJB; and
- Tier 2 capital, which is not currently applicable for GSIBJB.

Certain components of our regulatory capital are subject to regulatory limits and restrictions under the rules. In general, to qualify as Tier 1 or Tier 2 capital, an instrument must be fully paid and unsecured. A qualifying Tier 1 or Tier 2 capital instrument must also be subordinated to all senior indebtedness of the organisation.

### Regulatory Capital Ratios

The risk-based capital requirements are expressed as capital ratios that compare measures of regulatory capital to RWAs. The CET1 ratio is calculated as CET1 divided by RWAs. The Tier 1 capital ratio is defined as Tier 1 capital divided by RWAs. The Total capital ratio is defined as Total capital divided by RWAs.

### Compliance with Capital Requirements

As of September 30, 2023, the branch had capital levels in excess of its minimum regulatory capital requirements.

**Pillar 3 Disclosures****Key Prudential metrics and overview of RWA**

The table below provides an overview of the branch's prudential regulatory position as measured by key regulatory metrics as at September 30, 2023, June 30, 2023, March 31, 2023, December 31, 2022, and September 30, 2022.

**Table 1: Key Metrics (KM1)**

|   | Sep 23   | Jun 23 | Mar 23 | Dec 22 | Sep 22 |       |
|---|--|--------|--------|--------|--------|-------|

| <b>Liquidity Coverage Ratio</b>                                     |  |        |        |        |        |       |
| 15  | Total HQLA   | 1,701  | 1,626  | 1,663  | 1,727  | 1,217 |
| 16  | Total net cash outflow   | 314    | 221    | 230    | 566    | 431   |
| 17  | LCR ratio (%)  | 611%   | 745%   | 756%   | 531%   | 377%  |
| <b>Net Stable Funding Ratio</b>                                     |  |        |        |        |        |       |
| 18  | Total available stable funding   | 2,033  | 1,950  | 1,881  | 2,239  | 2,426 |
| 19  | Total required stable funding  | 433    | 410    | 336    | 450    | 847   |
| 20  | NSFR ratio (%)   | 470%   | 475%   | 560%   | 498%   | 287%  |

1. Capital ratios increased between 2Q2023 to 3Q2023 driven by decreased RWAs due to lower credit risk and counterparty credit risk exposures.

**Pillar 3 Disclosures**

RWAs are calculated based on measures of credit risk, market risk and operational risk. The tables below represent a summary of the RWAs and capital requirements by type as at September 30, 2023 and June 30, 2023.

**Table 2: Overview of RWA (OV1)**

|  | RWA        |            | Minimum capital requirements (8%) |
|--|------------|------------|-----------------------------------|
|  | Sep 2023   | Jun 2023   | Sep 2023                          |
|  | R'm        | R'm        | R'm                               |
| <b>1 Credit risk (excluding counterparty credit risk)</b>  | <b>114</b> | <b>144</b> | <b>9</b>                          |

| 22 Of which: internal model approaches (IMA)   | -          | -          | -                                 |
| <b>23 Capital charge for switch between trading book and banking book</b>                                      | <b>-</b>   | <b>-</b>   | <b>-</b>                          |
| <b>24 Operational risk</b>   | <b>264</b> | <b>264</b> | <b>21</b>                         |
| <b>25 Amounts below thresholds for deduction (subject to 250% risk weight)</b>                                 | <b>31</b>  | <b>27</b>  | <b>2</b>                          |
| <b>26 Aggregate capital floor applied</b>  | <b>-</b>   | <b>-</b>   | <b>-</b>                          |
| 27 Floor adjustment (before application of transitional cap)   | -          | -          | -                                 |
| 28 Floor adjustment (after application of transitional cap)  | -          | -          | -                                 |
| <b>29 Total (1+6+10+11+12+13+14+15+16+20+23+24+25+28)</b>  | <b>526</b> | <b>605</b> | <b>42</b>                         |

GSIBJB total capital ratio increased from 185.1% in June 2023 to 213.1% in September 2023 driven by lower credit risk and counterparty credit risk exposures.

**Pillar 3 Disclosures****Leverage Ratio**

The branch is required to monitor and disclose its leverage ratio that compares Tier 1 capital to a measure of leverage exposure, defined as the sum of certain assets plus certain off-balance-sheet exposures, less Tier 1 capital deductions.

The table below presents information about the branch's leverage ratio.

**Table 3: Summary Comparison of Accounting Assets vs Leverage Ratio Exposure (LR1)**

|           |  | Sep 2023     |
|-----------|--|--------------|
|           |  | R'm          |
| 1         | Total consolidated assets as per the BA 900  | 2,812        |
| 2         | Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation | -            |
| 3         | Adjustment for securitised exposures that meet the operational requirements for the recognition of risk transference   | -            |
| 4         | Adjustments for temporary exemption of central bank reserves (if applicable)   | -            |
| 5         | Adjustment for fiduciary assets recognised on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure               | -            |
| 6         | Adjustments for regular-way purchases and sales of financial assets subject to trade date accounting   | -            |
| 7         | Adjustments for eligible cash pooling transactions   | -            |
| 8         | Adjustments for derivative financial instruments   | 174          |
| 9         | Adjustment for securities financing transactions (ie repos and similar secured lending)  | -            |
| 10        | Adjustment for off-balance sheet items (ie conversion to credit equivalent amounts of off-balance sheet exposures)   | -            |
| 11        | Adjustments for prudent valuation adjustments and specific and general provisions which have reduced Tier 1 capital  | -            |
| 12        | Other adjustments  | (314)        |
| <b>13</b> | <b>Leverage ratio exposure measure</b>   | <b>2,672</b> |

**Pillar 3 Disclosures****Table 4: Leverage Ratio (LR2)**

|  | Sep 2023     | Jun 2023     |
|--|--------------|--------------|
|  | R'm          | R'm          |

| <b>23 Liquidity coverage ratio (%)<sup>3</sup></b>  |                        | <b>611%</b>                 |

GSIBJB average daily LCR decreased from 745% in June 2023 to 611% in September 2023 driven by an increase in Total Net Cash Outflows partially offset by an increase in High Quality Liquid Assets. Net Cash Outflows increase was mainly driven by increase in Outflows related to derivative exposures and other collateral requirements on account of HLBA model updates.

- The quarterly average figures reported in the template above are based on 63 data points where applicable
- The ratio reported in this row is calculated as average of the daily LCR's for the period and may not equal the calculation of ratio using component amounts reported in rows "Total high quality liquid assets" and "Total net cash outflows"

| 30 <i>NSFR derivative liabilities before deduction of variation margin posted</i>   | -                                     | -          | -                   | 31         | 31                    |
| 31 <i>All other assets not included in the above categories</i>   | -                                     | -          | -                   | 204        | 204                   |
| 32 <i>Off-balance sheet items</i>   | -                                     | -          | -                   | -          | -                     |
| <b>33 Total RSF</b>   |                                       |            |                     |            | <b>433</b>            |
| <b>34 Net Stable Funding Ratio (%)</b>  |                                       |            |                     |            | <b>470%</b>           |

GSIBJB NSFR ratio decreased from 475% in June 2023 to 470% in September 2023 driven by an increase in Required Stable Funding partially offset by an increase in Available Stable Funding. Required Stable Funding increase was driven by Other assets partially offset by decrease in operational deposits held at other financial institutions. Available Stable Funding increase was driven by an increase in intercompany loans.

**Pillar 3 Disclosures**

**Cautionary Note on Forward-Looking Statements**

We have included in these disclosures, and our management may make, statements that may constitute “forward-looking statements.” Forward-looking statements are not historical facts or statements of current conditions, but instead represent only our beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside our control. These statements may relate to, among other things, (i) our future plans and results, (ii) the objectives and effectiveness of our risk management and liquidity policies, and (iii) the effect of changes to the regulations, and our future status, activities or reporting under banking and financial regulation.

It is possible that our actual results and financial condition may differ, possibly materially, from the anticipated results

and financial condition indicated in these forward-looking statements. The branch continues to analyse capital rules proposals and is subject to the risk that the final rules may differ from the proposed rules, the branch's assets and liabilities may change and the branch may underestimate the actual impact of the final rules. Important factors that could cause our actual results and financial condition to differ from those indicated in these statements include, among others, those discussed in “Risk Factors” in Part I, Item 1A in the firm’s 2022 Form 10-K.
